

Patricia and her Petite Ecole cared for my twins' education and well being for almost 3 years.

Because I am a French mother, and know first hand the edge that an extra language gives to children, it was very important for me that the children learn French well and very early: La Petite Ecole's immersion program fit my needs perfectly, thanks to the experience, skill and care of Patricia as a truly gifted educator.

Also, on top of the academics, I was looking for a positive, encouraging and caring atmosphere for my children's early years of life. Patricia and Alex have been wonderful partners with me in the whole process of raising my children, as I have asked for their wise advice and counsel many times over the years!

I credit La Petite Ecole for my twins' love of learning, for their fluency in French, for their appreciation of healthy food, and their lasting friendships with their classmates! I sincerely encourage you to enroll your children at La Petite Ecole, and feel free to contact me anytime @ 303-680-7773 (home) or 303-898-2134 (cell) if you need any additional information.

Merci Patricia!
